

At **Westroads Medical Group**, we are an independent clinical research site located in central Omaha, Nebraska, a location which has a combined population of over 800,000. **Dr William R. Palmer** is CEO and a Board-certified rheumatologist who has practiced in Omaha, NE. for 35 years. He has participated in clinical research as a Primary Investigator for 30 years. He offers expert consultations, accurate diagnostic evaluations, ongoing treatment and case management for all rheumatologic diseases and conditions in his private practice including: Rheumatoid Arthritis, Juvenile Rheumatoid Arthritis, Osteoarthritis, Gout, Psoriatic Arthritis, Ankylosing Spondylitis, and Systemic Lupus Erythematosus. He maintains his private practice at the Westroads Medical Group location.

We provide sponsors and CROs with premium services leading to timely regulatory document submission, rapid subject identification, and successful enrollment. With more than 20 years experience, Dr. Palmer recognized the need for quality study compliance and outcomes with the established budgetary parameters. Each trial is conducted under strict adherence to FDA **Good Clinical Practice**. The staff is dedicated to a high level of protocol compliance and is responsive to communication between sponsor, site, IRB, and study personnel. Our center uses a central IRB.

Our research staff has completed the training through the ACRP. CRCs, a PA, a NP, and an RN plus other collaborative healthcare professionals ensure a high level of protocol compliance.
